

Ohio Medical Marijuana Control Program Compliant Devices List

UPDATED 9/13/2022

This document identifies devices that have been submitted to the MMCP for review and—based on representations made at the time of submission—were determined to be compliant with Program rules. Devices were determined to be compliant based on the information the submitter provided and their representation of the device. If additional information contrary to the representations made by the submitter are discovered and that information indicates a device on this list is not compliant, the MMCP reserves the right to remove relevant devices from the list. For steps to submit a device to be reviewed by the MMCP please see the [Vaporizing Devices Submission Guidance Document](#).
