

Dispensary Licensee Newsletter - January 2023

IMPORTANT UPDATES

METRC TRAINING UPDATE

Both the MMCP and the Metrc team have been working diligently to put together a system to meet the specific needs of the medical marijuana industry here in Ohio.

As a part of the required foundational training, dispensary employees are required to receive training on Metrc's Seed-to-Sale-system. This training is imperative because every licensed business is required to report medical marijuana distribution chain activity and each employee will need extensive knowledge of the Ohio Metrc system to ensure accurate reporting. Metrc's training plan accounts for the fact that potential end-users have various levels of exposure and understanding, as well as different needs. Introductory courses are going to be geared for new licensees that have no prior exposure to Metrc.

You can sign up for classes through [Metrc Learn Registration](#).

Also, after completing the course, a certificate of completion will not automatically be sent to the user. Individuals will need to reach out to the METRC support team to get the certificate.

Please email mmcptraining@pharmacy.ohio.gov if you have any questions.
