Webinar Objectives

- Industry to understand the context and relevance of Product ID to the functioning of the program
- Introduce industry to the resources available to assist submitting Items for Product ID Assignment
- Demonstration to industry users so that they can successfully submit products for the assignment of Product IDs
- Communicate the required Product ID naming conventions necessary for tracking dispensation history
- Forum for answering questions from industry users

Product ID Background

- All medical marijuana products must have an assigned Product ID to be accepted by a dispensary
- Without a Product ID dispensaries cannot report the dispensation to the Prescription Drug Monitoring Program
- Processors and Cultivators will not be able to transfer product without a Product ID
- This applies to each medical marijuana strain and medical marijuana form and dose
- The assignment of a Product ID is to ensure that only products in compliance with MMCP regulations are available to patients and their caregivers

Product ID Background – Relevant Legal Authority

- All medical marijuana strains and products must be registered with the Ohio Department of Commerce and assigned a Product ID in METRC by the Board of Pharmacy (OAC 3796:8-2-05)
- Before any medical marijuana strain or product may be sold to a dispensary, **each dose and packaged quantity** of that product must be **assigned a product identifier**.
- The Board of Pharmacy will review submissions for Product IDs. **Issuance of a product identifier serves as evidence that the registered product complies with ORC 3796.06 and OAC 3796:8.**

Naming Convention Overview

When creating the name of an Item Brand or an Item use the following naming convention:

[Form and Method] – [Strain Classification (Indica, Sativa, or Hybrid)] – [% THC] – [%CBD]

E.G. – Tier 1 Vap-Indica-28-10

Please note: There is a 30 character limit for this field. Any Item that includes non-compliant information in the Brand name will be rejected and an Administrative Hold will be placed on the Package associated with the Item.
