### Registry Reminders

#### **Recommending Physician Contact Information**

Physician contact information can be found in your patient profile by visiting [www.ohiomedicalmarijuanaregistry.com](http://www.ohiomedicalmarijuanaregistry.com) and signing in with your email address and password. Once logged in, you can scroll down to the "RECOMMENDATION" section. If your forgot your password, you can follow the instructions in this [article](#) to reset it.

#### **Registration & Recommendation Expiration Dates**

The patient or caregiver's registration expiration date is based on the date the registration was initially activated, not the date the physician adds a new recommendation to the profile. That expiration date will always be at the end of the month, one year from when the patient or caregiver initially activated the registration. (e.g., if the registration was activated on 1/10/2022, your new expiration date will always be on the last day in January).

Pursuant to rules [3796:7-2-04](#) and [3796:8-2-04](#) of the Administrative Codes, the maximum amount of time a physician can issue a recommendation for is 90-days with up to three 90-day refills – for a total of 360 days. Thus, a patient's recommendation from their physician will expire before their patient registration.
