REGISTRY REMINDER: CAREGIVER APPROVAL PROCESS

As a part of the registration and renewal process, caregivers are required to confirm eligibility before they can purchase medical marijuana on behalf of a patient.

Upon activating or renewing a caregiver registration, a caregiver's card will not be immediately active. After paying the fee, the activation of the caregiver card will be pending an eligibility review. [Rule 3796:7-2-02](#) of the Ohio Administrative Code requires the Board to check seven separate databases to see if the caregiver is identified on any of them. If the caregiver does appear, the Board must deny the caregiver registration or renewal.

When a caregiver's status is approved, they will receive an email to notify them of their submission's completion. Caregiver approval status can also be viewed under the "Demographics" section of the caregiver's account in the Patient & Caregiver Registry.

Registrants may request to have the status check expedited by submitting a request to the Board at MMCPRegistry@pharmacy.ohio.gov.

Patients who no longer require a caregiver must contact their physician to "unlink" the existing caregiver(s) from their account. Individuals registered as Patient and Caregiver who no longer want to serve as caregivers should email MMCPRegistry@pharmacy.ohio.gov to have the caregiver status removed from their account.
