

QUICK REFERENCE GUIDE: RENEWING PATIENT REGISTRATION

Updated 4/27/2022

In the Ohio Medical Marijuana Control Program, patients renew their registration by completing a two-step process.

Patients will not receive an automated email from the Registry with a link to renew their registration. Patients will have to log into the Registry themselves, as detailed later in this document.

STEP ONE: RECEIVE A NEW RECOMMENDATION FROM YOUR PHYSICIAN

Patients need to receive a new recommendation from their recommending physician.

STEP TWO: LOG INTO REGISTRY AND PAY RENEWAL FEE

Patients will not receive an automated email from the Registry with a link to renew their registration. Within 30 days of the registration expiration date, or after receiving a new recommendation if the registration is expired, patients can visit www.ohiomedicalmarijuanaregistry.com and sign in using their email address and the password they created when they activated their Registry account.

NOTE: If the registration and recommendation are expired, the patient will need to obtain a new recommendation before they can renew the registration. After the new recommendation is issued, the "RENEW CARD" button will appear in the Registry account, and the patient can complete the renewal process.

If patients do not remember their password, they can follow the instructions in [this article](#) to reset their password.

Once they log into their Registry account, patients can click the red button labelled "RENEW CARD" to renew their registration.

PAYMENT NOTICE: The State of Ohio Board of Pharmacy accepts Visa, MasterCard & Discover.

After successfully submitting the registration renewal fee, patients will be returned to their Registry profile. The new active Registry card will be visible on the left side of the page with a new expiration date. Select the Download button to print or save your medical marijuana card.

If you have any questions about renewing registrations, please contact the Board via email at MMCPRegistry@pharmacy.ohio.gov.
